

POLICY 014-DCR

DONATION CRITERIA

The following criteria will assist the Board of Trust Aoraki Limited (Trust Aoraki) to determine the eligibility of applicants to receive community grants.

1. Funds available for distribution will be applied to any charitable, philanthropic or cultural purpose, or any other purpose that is beneficial to the community or any section of it. All grant applications must meet the Department of Internal Affairs' criteria and the definition of "authorised purposes" as defined in the Gambling Act 2003.

"Authorised Purposes" include (but are not limited to):

- The provision, or assistance in the provision, of facilities, equipment or playing/training uniforms for sporting clubs and amateur sporting teams affiliated to the appropriate regional or national body, playing in recognised, published leagues or competitions; and/or
 - Grants for charitable purposes including the relief of poverty, or welfare assistance through donations to recognised social service or welfare agencies; and/or
 - Grants to educational or training organisations for scholarships or equipment that is administered by the recipient educational organisation; and/or
 - Grants to recognised cultural or philanthropic activities or groups.
2. One philosophy of Trust Aoraki is 'locals for locals', that is, decisions are being made by locals for locals. This ensures that 100% of available grant funds raised within a local community/area (typically defined by territorial local authority boundaries) are distributed within that local community/area. However, the Board may, at their discretion, apply and distribute funds generated from one area into another area where the Directors consider there is a community of interest between the two areas.
 3. When considering applications, the Board must give consideration to Trust Aorakis' philosophy of supporting 'excellence' and/or 'participation', i.e. applicants are required to demonstrate that they are achieving at a high level and/or that community benefit is maximised.
